CHICAGO GRAIN MARKET.

CHICAGO, June 21.—What prices to-day regained part of the ground lost yesterday, owing to support buy bull leaders. At the close prices were 4 25c. above yesterday's mai argures. Corn continued its downward course and closed weak, Oats were easy and provisions firm.

Attention of traders in the wheat pit was turned temporarily from domestic conditions to the foreign situation, particularly that in Argentine, Several bull leaders, ignoring the extremely favorable crop reports that came in from all parts of this country, bought freely the greater part of the day. Their demand was chiefly for the July delivery, but there was also good demand for the September and December options. The nearby delivery manifested the greatest buoyancy and advanced lic, from the low point of the session. The arrival of three cars of new wheat at St. Louis, two cars of which were No. 2 red, and were auctioned off at \$1.20 per bushels, prompted considerable miscellaneous selling late in the day. The market closed strong with July at \$1.33%.

The magnificent prospects for the new crop caused general liquidation in the corn market, resulting in net declines for the day it \$40. The principal selling pressure was on the July delivery.

Cash houses and country holders were free sellers of oats early in the session, which resulted in considerable weaknoss, Later, however, the market developed as much steadler tone. The market but the tone of the market was firm.

On Foreign Exchanges

LONDON, June 24.—Money was in increased demand on the market today and discounts were quiet. On the Stock Exchange transactions for new account were meagre. The rally in Americans and the improvement in Kaffirs caused a better ione to prevail in certain departments. Copper shares, particularly Rio Tinos, were supported, but near the close they were a little below the best. Consols and gilt-edged securities were neglected, but foreigners and home ralls hardened.

American securities opened slightly above parity. Union Pacific, Southern Pacific and United States Steel were in good demand. At noon the market was firm, with prices 1-2 to 2 1-2 points over yesterday's New York closing. Americans were firm in the afternoon, showed further improvement after the New York opening and closed at the best. Union Pacific, preferred, was the feature.

REMOVALSALE

For Two Weeks

\$36,500.00

Worth of Clothing, Hats, Shoes and Furnishing Goods

Must Be Sold Regardless of Cost or Value.

We state in our own behalf and endeavor to recall to the minds of the public that we have never been in the habit of manufacturing ideas for sale purposes, and that we have never conducted sales unless with a legitimate and specific reason for doing so. It has been our custom for the past few years to have a Discount Sale at the end of each season to close out odds and ends. During these sales actual discounts were deducted from the real and only selling price of our goods. We call attention to these facts to satisfy persons who possibly might judge us by unscrupulous merchants who promote sales to force business, thereby making a profit. Our stock at this time must be sold at a sacrifice to enable us to open our new store, 313 East Broad Street, with an entire new stock of merchandise. We do not intend to move a dollar's worth of goods from this store if price will sell them.

Facts.

We move to 313 East Broad street on or about Aug. 1st.

Store is now being remodeled.

The Proof of the Pudding

Thousands of people have already attended this sale and have carried to their homes the greatest bargains ever purchased, and which no doubt have proven entirely satisfactory, as articles were sold with the understanding that money would be refunded to all purchasers if goods were not found to be as represented. Notwithstanding the fact that this Removal Sale has been such a successful one stock is still in prime condition. The best is yet to be sold. Case after case of new goods, late in being shipped by manufacturers who positively refused to cancel orders, are now opened and in stock, marked at same reductions as stock on hand
